

Score Sheet for P.I. Recognition Test

- 1) These scores apply when using Photo C-481, SE Moskva (Exp. 69)
- 2) See annotated print, Target Mosaic and stereo print attached
- 3) When scoring, it will be found that certain students mark more items than are called for. Score all the wrong identifications against the correct and allocate the points proportionately.
- 4) The best possible score for this test is 100 correct points over 0 omitted and 0 wrong. (Omitted questions count as 1)
Typical scores obtained so far are between a low of 22 right, 15 wrong & 19 omitted, and a high of 35 right over 10 wrong & 17 omitted. (No previous P.I.)
